Ingredients

Wheat Middlings, Soybean Hulls, Oats, Corn, Soybean Oil, Soybean Meal, Calcium Carbonate, Yeast Culture, L-Lysine, DL-Methionine, Biotin, Monocalcium Phosphate, Dicalcium Phosphate, Salt, Magnesium Oxide, Manganese Sulfate, Zinc Oxide, Ferrous Sulfate, Copper Sulfate, Calcium Iodate, Cobalt Carbonate, Selenium Yeast, Zinc Proteinates, Manganese Proteinates, Copper Proteinates, Cobalt Proteinates, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Choline Chloride, Niacin Supplement, D-Calcium Pantothenate, Riboflavin Supplement, Thiamin Mononitrate, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Folic Acid.

Feeding Directions

Seminole Profecta 14™ is a premium pelleted feed designed for growing, breeding and performance horses. Start the feeding program using the Feeding Directions for the weight and activity level of the horse. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight. Do not feed Seminole Profecta 14™ on a free-choice basis. Feed at regular times, with two or more equal feedings per day. Make all feed changes gradually, over a 7-10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has been exercised or is exhibiting pain, fever or diarrhea. Seminole Profecta 14™ weighs approximately 1.6 pounds per dry US quart. Provide a free-choice horse mineral such as Seminole Grass Balancer 16:8 Mineral on a continuous basis. Provide clean, fresh water at all times.

FEEDING RATES BASED ON POUNDS OF FEED PER DAY. FEEDING RECOMMENDATIONS ARE BASED ON HORSE WEIGHT AND ACTIVITY LEVEL.

- Feed a good quality forage at the rate of 1.5 - 2.0% of the horse's body weight per day.
- For horses who need additional calories for performance, weight gain or coat conditioning, supplement with Seminole Ultra Bloom® or Seminole Rice Bran Oil.
- If you cannot feed the minimum recommended feeding rate, please contact our nutritionist.
- These feeding guidelines are suggestions based on horse weight and activity level, but adjustments may need to be made to achieve desired body condition.
